

YOU'RE INVITED

HOUSE AND SENATE MANUFACTURING CAUCUS BRIEFING Supplying Ingenuity: Sustaining and Growing U.S. Manufacturing and Jobs in Advanced, Fuel- Efficient Vehicles, Components, Materials and Technology

This briefing will bring together industry experts, and national- and local-level labor and company speakers to discuss automotive technology innovation, investment, manufacturing, and job growth across the country and what is needed to maintain it.

The briefing will highlight a recent report on the automotive manufacturing sector, *Supplying Ingenuity II: U.S. Suppliers of Key Clean Fuel-Efficient Vehicle Technologies*, that finds more than 1200 U.S. factories and engineering facilities in 48 states—and nearly 300,000 American manufacturing workers—building technology that improves fuel economy for today's vehicles.
